

4. Extreme Abilities

Atlantic Puffin (*Fratercula arctica*)

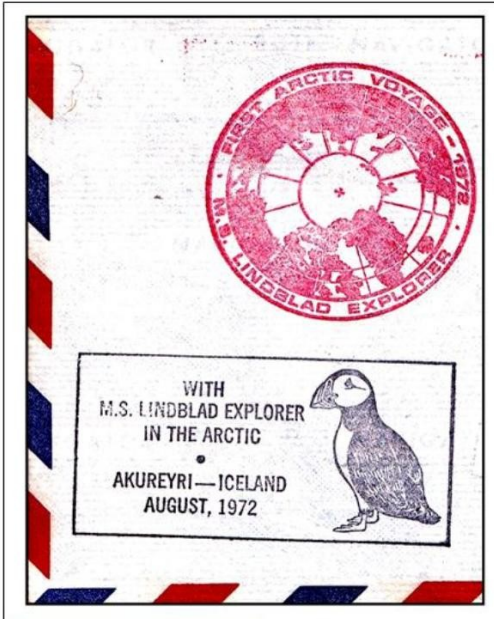

Ability - Carries mouthful of fish in its bill

An Atlantic Puffin, can hold a record of an incredible 62 small fish in a single load. It could be an anxious moment in puffin colonies, there are often gulls, skuas or even other puffins hanging around, waiting to steal hard earned food. By any measure, the Atlantic puffin, certainly goes for bulk buying, carries about 5-6 fish on an average.
