

6. Extreme Form

African Fish Eagle (*Haliaeetus vocifer*)

Attribute - Largest Raptor (Kleptoparasite) of Africa

African fish eagles can carry prey that's up to ten times its own body weight.

Rather than carry it high into the sky it will drag prey across the water surface, until it reaches a safe place to land.

6.7 Largest Raptor

EXTREME BIRDS

Geographical Distribution - Sub-Saharan Africa

F.D.C. for Fish Eagle Stamp
