Family: Helvellaceae

Issue: Mushrooms 1977

Liechtenstein

Cancellation: Vaduz

22-08-1997. First day

Edition: Official Philatelic

Service MK 151

Amanita citrina

For a long time it was considered poisonous almost as much as the Amanita phalloides. Experience has demonstrated that this mushroom is not dangerous but of poor quality.

Class: Agaricomycetes

Order: Agaricales

Family: Amanitaceae

Issue: Mushrooms 2014

Bulgaria

Cancellation: Sofia

10-02-2014. First day
