

Hello friends.

The history of Ukrainian philately is not as long as it could be. But it has interesting and beautiful moments that delight the eyes of connoisseurs of postal miniatures.

👋♂️ So, despite many disputes and theories, I believe that Ukrainian philately took shape as an independent object after the collapse of the Russian Empire. It was when the Ukrainian People's Republic was proclaimed that the Ukrainian postage stamp was born. The authorities and the political system changed, and postage stamps changed along with them. Some were completely new developments, others were echoes of the Russian Empire with an overprint, others were echoes of the Austro-Hungarian Empire with an overprint, and others were amazing local releases. As a result of military aggression from the created Russian Soviet Federative Socialist Republic, the young Ukrainian state was defeated. In its place, a communist republic was created - the Ukrainian Soviet Socialist Republic. A little later, the Ukrainian SSR was included in the USSR for many years. The revival of a democratic state took place in 1991 after the collapse of the USSR. The young country began searching for its place in the modern world. New symbols, ideals, directions and, of course, postage stamps were created. Unfortunately, I do not have a complete set of all Ukrainian postage stamps, but in this work I want to share the contents of my albums. Let's start the journey. Good luck

Ukrainian state (Hetman Skoropadsky) 1918.

Release of the Government of the Directory of the UPR.

After the fall of the Hetmanate on November 14, 1918, power in Ukraine passed to the Directorate. The name of the state, the Ukrainian People's Republic, was restored.

In 1919, the Administration of the Directory ordered a series of 14 stamps with denominations from 1 to 200 hryvnia from the Viennese printing house of the Military Geographical Institute. The stamps depicted the following scenes and portraits: 1 hryvnia - the coat of arms of the Ukrainian People's Republic, 2 hryvnia - the allegory "Young Ukraine", 3 hryvnia - a farm, 5 hryvnia - an ox team, 10 hryvnia - Bohdan Khmelnytsky, 15 hryvnia - Ivan Mazepa, 20 hryvnia - Taras Shevchenko, 30 hryvnia - Pavel Polubotok, 40 hryvnia - Simon Petlyura, 50 hryvnia - Cossack musician, 60 hryvnia - Parliament building, 80 hryvnia - Cossacks on a boat, 100 hryvnia - monument to St. Vladimir, 200 hryvnia - mill[8].

The drawings of eight of these stamps and the general design of the series were made by the Ukrainian artist N. I. Ivasyuk, the images on other stamps were made based on the official graphic sample of the trident, portraits of T. Shevchenko, B. Khmelnytsky, I. Mazepa, S. Petlyura and photographs of historical objects[1]. The release was called the Vienna series. Printing of the stamps was completed on May 31, 1921. Due to the displacement of the Directorate troops outside Ukraine, stamps were not used for postal purposes. The Vienna series stamps were later used by emigrant organizations as propaganda and for making various kinds of fantastic overprints. Thanks to the potential of Ukraine and the high artistic, encyclopedic, educational level, high spiritual energy

These postal miniatures were not deprived of the attention of the German Michel catalog and the American Scott catalog.

Brands WUPR

History of mail and postage stamps of the Western Ukrainian People's Republic.

At the end of 1918 - beginning of 1919, a self-proclaimed independent state existed in eastern Galicia - the Western Ukrainian People's Republic (WUNR), which issued its own postage stamps.

These postage stamps were Austro-Hungarian "postage"/service stamps overprinted by the administration of the Western Ukrainian People's Republic. Unfortunately, I don't have these in my album. After the military absorption of the territories of Ukraine by Soviet Russia, and the revival of the Polish state until 1991, the independent Ukrainian state ceased to exist. During this period there was a small postal charity issue of the Ukrainian Soviet Socialist Republic; until 1991, general postage stamps of the USSR were used.

The modern state of Ukraine regained its independence as a result of the collapse of the Soviet Union and the declaration of independence on August 24, 1991, which was confirmed by a referendum on December 1, 1991.

Ukraine is a unitary state consisting of 24 regions, the Autonomous Republic of Crimea and two cities with special status: Kyiv, the capital and largest city, and Sevastopol.

Ukraine is a parliamentary-presidential republic. The body of legislative power is the Verkhovna Rada of Ukraine, which appoints the highest executive body — the Cabinet of Ministers of Ukraine, headed by the Prime Minister. The President of Ukraine is the Head of State and Commander-in-Chief.

The majority of Ukrainian citizens are Christians, mainly of the Orthodox faith, although Greek Catholicism is also widespread in the west of Ukraine. Religions of indigenous peoples of Ukraine are also Islam, Judaism and Karaism. Before the adoption of Christianity in Russia in 988, the pagan Slavic religion was dominant.

We continue our journey through my albums.

The next episode is one of my favorites. Zodiac signs. I love the works of the Ukrainian artist Evgenia Gapchinska.

A few words about her. 📧 Evgenia Gennadievna Gapchinskaya (born November 15, 1974, Kharkov, Ukrainian SSR) is a Ukrainian artist-painter, illustrator of children's literature. She was born as the fifth child in a military family. At the age of five she went to school, and at the age of 13 she became a student at the Kharkov Art School. Graduated from the Kharkov Art Institute.

Trained at the Nuremberg Art Academy. In 2000 she moved to Kyiv. She began her art and exhibition activities in 2002. In 2010, the book “Pirate Stories” by the publishing house “Smart Child” (Ukraine), illustrated by Evgenia Gapchinskaya, was included in the catalog of the best children's books in the world “White Ravens 2010”, published by the International Munich Children's Library.

During the armed conflict in eastern Ukraine, she took upon herself to provide support for a platoon of the Ukrainian army, where her husband, artist Dmitry Gapchinsky, served.

After the full-scale invasion of Ukraine by Russian troops, many brands became very important to me. I, along with many Ukrainians, participated in surveys on new brand projects. This interesting process did not last long. Exactly until the moment it turned into commerce. Since the fall of 2022, I have already purchased Ukrainian postage stamps selectively. Just what I liked.

Притаманні «Доброго вечора, ми з України!» ознаки датилися у 2022 р. після російської військової агресії проти України. Сьогодні цією фразою розпочинають свої ефірні виступи, передачі, відеоблоги, вони звучать у композиціях музичних творів.

Саме фразу «Доброго вечора, ми з України!» обрали урядовці, а також її вже продовжують не соромлячись тоді, як можна зустріти поштові маркі України кожного часу. У відкритому конкурсі на кращий малюнок до поштової марки «Доброго вечора, ми з України!», на який надійшло 1000 творчих робіт, беззаперечно переможцем став малюнок Анастасії Бондаренко. Завдяком у підсумку взяли участь майже 900 тис. respondentів.

За словами авторки поштової марки Анастасії Бондаренко, її малюнок про те, як кожен український робить все від нього залежне, а саме: працює, навчається, щоб наблизити перемогу.

Creating "Good evening, we are from Ukraine!" became iconic in 2022 after the Russian military invasion of Ukraine. Today, journalists, officials, and military personnel start their broadcasts with this phrase, it sounds in musical tracks.

The very phrase "Good evening, we are from Ukraine!" was chosen by Ukrainians, from among 5 topics presented at the vote, as the plot of the next postage stamp of Ukraine during the war. In the open competition for the best sketch for the postage stamp "Good evening, we are from Ukraine!" for which 1,000 creative works were submitted, the drawing of Anastasia Bondarenko won the undisputed victory. In general, 900,000 respondents took part in the voting.

According to the author of the postal addition, Anastasia Bondarenko, her drawing is about the fact that every Ukrainian, by virtue of his own capabilities, does everything that depends on himself to bring our Victory closer.

Поштовий випуск присвячено псу Патрону – улюбленцю дорослих і дітей, талісману українських рятувальників, бажаному гостю публічних заходів.

З початку війни джек-рассел-тер'єр із кличкою Патрон служить в команді піротехніків Державної служби України з надзвичайних ситуацій.

Два роки тому керівник піротехнічної групи Головного управління ДСНС України у Чернігівській області подарував своєму сину щенятко. Чотириногого готували до виставок, але через війну йому довелося стати сапером.

Окрім несення служби, Патрон присутній на пресконференціях, зустрічах з лідерами іноземних держав, а також відвідує дітей у лікарнях.

Патрон нагороджений медаллю «За віддану службу».

«Пес Патрон» – перші благодійні поштові марки України, випущені з додатковим номіналом – 8 грн. Зібрані в такий спосіб Укрпоштою благодійні внески будуть використані для придбання машини механізованого розмінування та надання допомоги притулкам для тварин.

The postal issue is dedicated to dog Patron, a favorite of adults and children, the mascot of Ukrainian rescue workers, and a welcome guest at public events.

Since the beginning of the war, the Jack Russell Terrier named Patron has been serving in the pyrotechnics team of the State Emergency Service of Ukraine.

Two years ago, the head of the pyrotechnic group of the Main Department of the State Emergency Service of Ukraine in Chernihiv region gave his son a puppy. The four-legged pet was prepared for exhibitions, but because of the war he had to become a sapper.

In addition to duty, Patron attends press conferences, meetings with foreign leaders, and visits children in hospitals.

Patron has been awarded the Medal "For faithful service".

"Dog Patron" – the first charity postage stamps of Ukraine, issued with an additional face value of 8 UAH. Charitable contributions collected in this way by Ukrposhta will be used to purchase a mechanized demining machine and provide assistance to animal shelters.

Відзнаку Президента України «Хрест бойових заслуг» встановлено для відзначення військовослужбовців Збройних Сил України та інших військових формувань, утворених відповідно до законів України, за: видатну особисту хоробрість та відвагу або видатний героїчний вчинок під час виконання бойового завдання в умовах небезпеки для життя та безпосереднього зіткнення із супротивником; видатні успіхи в управлінні військами (силами) під час ведення воєнних (бойових) дій (Указ Президента України В. Зеленського від 5 травня 2022 р. № 314/2022).

Зразком для розроблення відзнаки послугувала найвища військова нагорода УПА і УГВР – «Хрест Бойової Заслуги», проєкт якої створив відомий український художник Ніл Хасевич.

Хрест бойових заслуг виготовляється зі срібла з позолотою і має вигляд прямого рівностороннього хреста, у центрі якого зображення Знака Княжої Держави Володимира Великого.

Серед перших були удостоєні бойової відзнаки: Головнокомандувач ЗСУ, генерал Валерій Залужний, капітан Владислав Калієвський, сержант Дарія Мазуренко, генерал-лейтенант Євген Мойсюк, полковник Олександр Охрименко.

Автор дизайну відзнаки «Хрест бойових заслуг» – Олександр Лєжнев. Дизайн поштового випуску Володимира Тарана.

The Presidential Award "Cross of Military Merit" was established to recognise servicemen of the Armed Forces of Ukraine and other military formations formed in accordance with the laws of Ukraine for: outstanding personal bravery and courage or an outstanding heroic act during a combat mission in conditions of danger to life and direct contact with the enemy; outstanding success in the management of troops (forces) during military (combat) operations (Decree of the President of Ukraine V. Zelenskyy of 5 May 2022, No. 314/2022).

The highest military award of the UPA and UGVR, the Cross of Combat Merit, designed by the famous Ukrainian artist Nil Khasevych, served as a model for the design of the insignia.

The Cross of Military Merit is made of silver with gilding and looks like a straight equilateral cross with the image of the Sign of the Princely State of Volodymyr the Great in the centre.

These people were among the first to be awarded combat honors: General Valeriy Zaluzhnyi, Commander-in-Chief of the Armed Forces of Ukraine, Captain Vladyslav Kalyevskiy, Sergeant Daria Mazurenko, Lieutenant General Yevhen Moysiuk, and Colonel Oleksandr Okhrimenko.

The design of the Cross of Military Merit was created by Oleksandr Lezhnev. Design of the postal issue is by Volodymyr Taran.

У 2023 р. одне з найулюбленіших зимових свят – День Святого Миколая вперше відзначається в Україні 6 грудня, одночасно зі святкуванням Дня Збройних Сил України.

Св. Миколай – християнський священик, який жив у III–IV ст. Він прославився допомогою бідним, особливо дітям. Образ Св. Миколая – це втілення людяності, доброти та високих моральних цінностей.

За традицією святкування Св. Миколай за гарні справи та вчинки приносить подарунки, за погані – різочки.

З початком війни в Україні мрії як дорослих, так і дітей трансформувалися в одне єдине спільне на всіх бажання – здобути Перемогу. І цього річне відзначення Дня Святого Миколая разом із Днем Збройних Сил України ще більше підсилює віру української нації у перемогу добра над злом.

На поштовому випуску «Подарунки Святого Миколая» в інтерпретації художника Костя Лавро Св. Миколай веде в камуфляжному мішку таку необхідну для Перемоги України зброю для ЗСУ, а «різочки» від святого і наших воїнів сповна отримує ворог.

In 2023, one of the most beloved winter holidays, St. Nicholas Day, is celebrated in Ukraine for the first time on December 6, along with the Armed Forces Day.

St. Nicholas was a Christian priest who lived in the III–IV centuries. He became famous for helping the poor, especially children. The image of St. Nicholas is the embodiment of humanity, kindness and high moral values.

According to the tradition of the holiday, St. Nicholas brings gifts for good deeds and actions, and "the rods of punishment" – for bad ones.

Since the beginning of the war in Ukraine, the dreams of both adults and children have transformed into one common desire – to win the victory. And this year's celebration of St. Nicholas Day together with the Day of the Armed Forces of Ukraine further strengthens the Ukrainian nation's faith in the victory of good over evil.

On the postage stamp "Gifts from St. Nicholas", interpreted by artist Kost Lavro, St. Nicholas is carrying weapons for the Armed Forces of Ukraine in a camouflage bag, which is so necessary for Ukraine's victory, while the enemy will get "the rods of punishment" from the saint and our soldiers.

When creating this material, postage stamps were used from my personal albums, purchased at different times, from different sources.

We also used information from Wikipedia, the mobile application "Stamp identifier", a catalog of Ukrainian postage stamps published in 2010, edited by Tsyupak Y.S., Grabshtein R.S., Rogozinsky M, S. Some thoughts are taken from Valery Cherednichenko's book "About Philately for Everyone."

I hope this short journey and philatelic objects will appeal to connoisseurs of postal miniatures. See you again Friends 🙌♂️
