SOCIAL AWARENESS THROUGH PHILATELY

Social consciousness is consciousness shared by individuals within a society. It is defined as being aware of the problems that different and communities face on day today basis and to be conscious of the difficulties and hardships of society.

When we create awareness among people we are also empowering them to face certain difficult situations and at the same time we are helping them to overcome these difficulties.

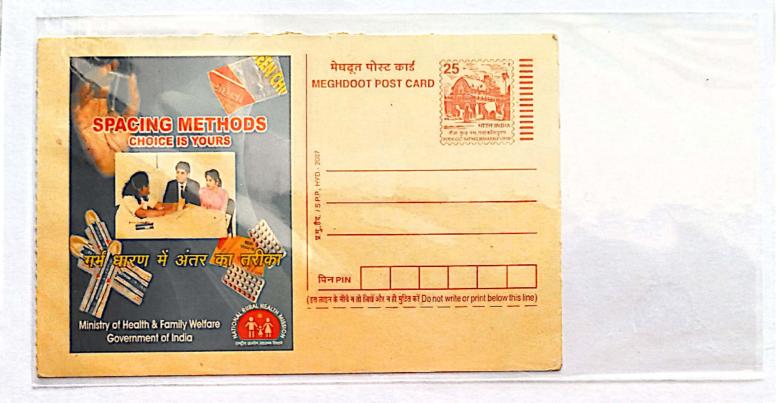

Social awareness also encourages people to take care of their health infact when people to get to know about ill of certain habits they will behave more responsibly and try to be more active.

Philately is one channel to educate the populace and affect social awareness'

India post released stamps and stationary indicating the effectiveness of philatelic materials for educating the population and raising social awareness.
