The Hindu Temple

Introduction:

The conception origin evolution and development of temples as physical architectural and later artistic structures is perhaps as old as the dawn of human civilization temples embody one of the finest, deepest, grandest and most profound expressions of the human spirit of awe wonderment and a timeless yearning for spirituality philosophy art and creativity etched in stone, wood, and other vehicles. The inner longing for the spiritual can never be fully expressed it transcends space and time.

The word "temple" from the latin word "templum" originally signified any holy enclosure or building that is screened from the eyes of the profane. It is the dwelling place of god; it is the sever's purpose housing his image; and it is the architectural frame of the liturgy and cult the god.
