

Collection: Flags of the World

Collector's name: Mihnea Raducu from Romania

Start of collection: March 2016

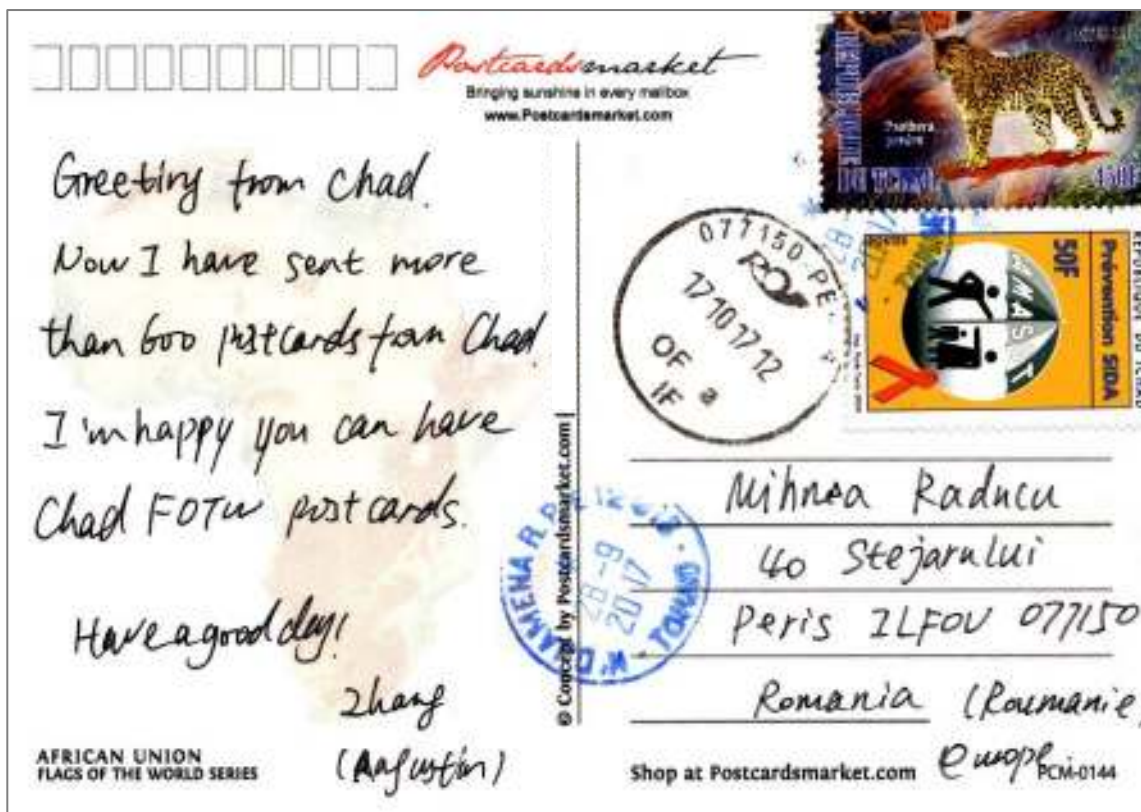

The collection is arranged alphabetically, by continents.
It contains 234 postcards received from a total of x80 countries.
All postcards are for real and they are part of my collection.

- On each page is written the name of city and date for sending, same facts for receival and the time (days) of travelling (when available)
- On all postcards, usually is the Sending Postmark who cancel the stamp with date and location (City and Country Name as written on the stamp) and Postmark of receival date (postmark of Postal office from Peris or Voluntari (both - my addresses).
- Voluntari address is with PO Box – in order to avoid possible accidents (rain, snow, dust s.o.)
- From several countries I received more than one postcard, in that case I add all the cards that I received.
- In the photo below you can see the legend / details of the front of the postcard.
- There are cards still travelling – my collection is still growing.

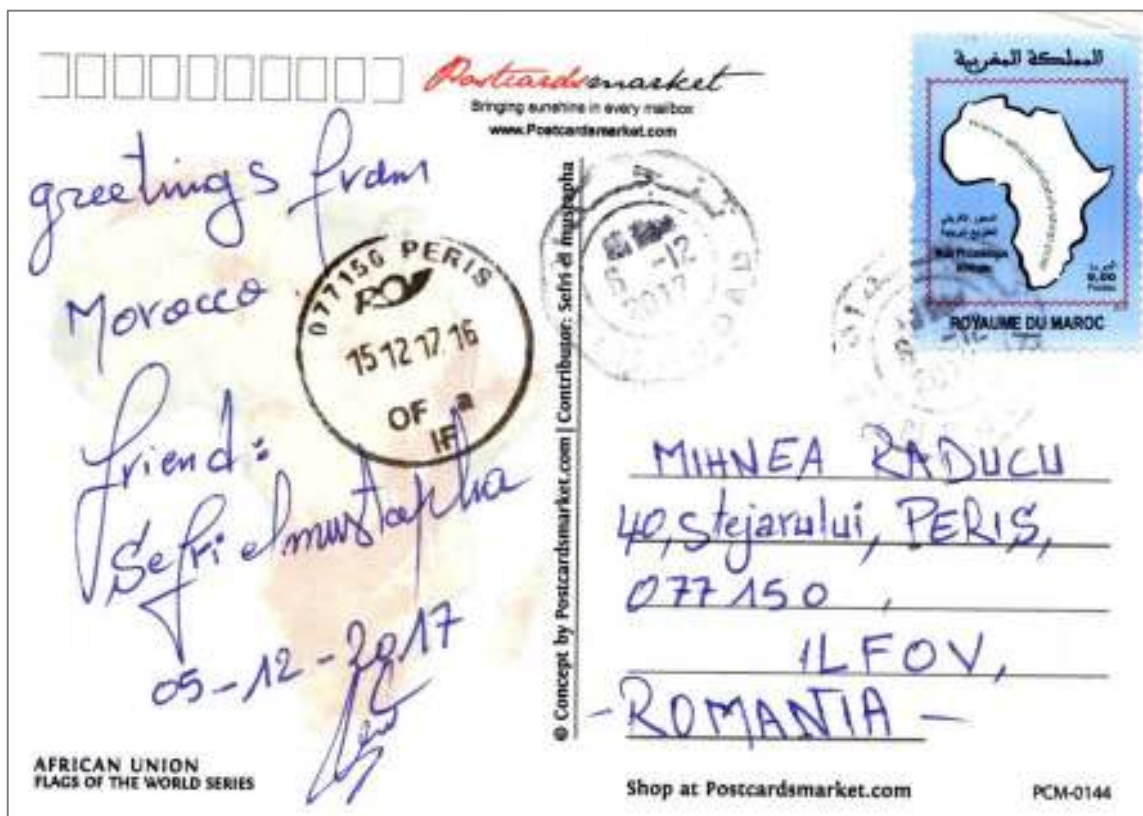

The collection is physically – not digital – 180
different countries and territories - 234 postcards;
Photo proof with a pile of cards:

UNIQUE

SISTINE CHAPEL
• Is a chapel in the Apostolic Palace, the official residence of the Pope, in Vatican City. The base of the Sistine Chapel lies mainly in the fresco that decorate the interior, and most particularly the Sistine Chapel ceiling and The Last Judgement by Michelangelo.

THE OBELISK • Roman Emperor Caligula had his forces transport from Egypt a galea that had originally stood in Heliopolis. The obelisk, made of a single piece of red granite weighing more than 350 tons, was erected for an Egyptian pharaoh more than 3,000 years ago. In 1586 it was moved to its present location in St. Peter's Square, where it does double duty as a giant sundial.

FAMOUS

THE SWISS GUARD
• Recognizable by its iconic and colorful Renaissance-era uniforms, The Swiss Guard has been protecting the pontiff since 1506.
• Although the world's smallest standing army appears to be strictly ceremonial, its soldiers are extensively trained and highly skilled warriors.

HISTORY

THE SECRET PASSAGEWAY
• At several times during the Vatican's history, popes escaped through a secret passageway. In 1277, a half-mile-long elevated covered passageway the Passetto di Borgo, was constructed to link the Vatican with the fortified Castel Sant'Angelo on the banks of the Tiber River. It served as an escape route for popes, most notably in 1527 when it likely saved the life of Pope Clement VII during the sack of Rome. As the forces of Holy Roman Emperor Charles V rampaged through the city.
