

## 5. Architecture...

*Published by Rannenberg & Friends*

Lighthouses, which were built over a century ago, freeze over when the winter winds and waves.

The lighthouses' exposed position makes them a popular destination for sightseers looking for magnificent icicles.

Evoking the timeless sentiment of isolation, frozen lighthouses are a perfect symbol for the winter months.

Splashing waves and frigid wintry storms transform lighthouses into accidental sculptures on the shores.
