

Lighthouses are both a sightseeing attraction and a cultural centre.

Printed in England

THE LIGHTHOUSE **PORTLAND BILL**

Built:

1903-06, replacing two earlier structures half a mile inland. The old lighthouse, built in 1789, now houses a bird observatory.

Height:

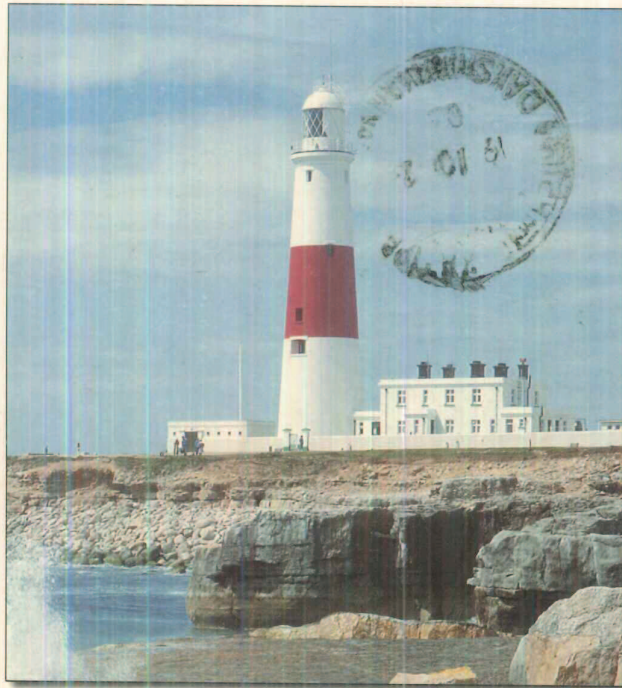

Tower 136 feet; light 141 feet above Mean High Water.

Light:

Electric 100V 3000W, 3,370,000 candle power; range 29 nautical miles; characteristic, white group flashing 4 every 20 seconds.

Fog signal:

Diaphone, 3.5 second blast every 30 seconds.
