

21. Preservation...

Lighthouses are bound for the threat of *shoreline erosion*, a natural process.

The entire light station has to be moved safely to a new site in order to *preserve* the historic structure.

Italy's ***Vieste Lighthouse***,
one of the most important lighthouses of the Adriatic, warning ships away from *Gargano Peninsula*.
Copyright Tipografia San Michele

Netherlands's ***Texel Lighthouse***,
endangered by beach erosion, which has been controlled by a sea wall.
